4. First Aid Measures

Summary of First Aid Measures

Ingestion : Do not induce vomiting. If victim is conscious and alert, give 2-4 cupfuls of water. Never give anything by mouth to an unconscious person. Get medical attention.

Inhalation : Remove from exposure area to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical aid.

Skin : Remove contaminated clothing and shoes. Wash affected area with soap or mild detergent. Get medical attention.

Eyes : Flush eyes thoroughly with large amounts of water for at least 15 minutes. If irritation or adverse symptoms develop, seek medical attention.

Medical Conditions : N/A

**Effects of
Overexposure** : N/A

Summary of Acute Health Hazards

Ingestion : May cause severe gastrointestinal tract irritation with nausea, vomiting and possible burns. May cause cardiac disturbances. May be harmful if swallowed.

- Inhalation** : Dust may cause irritation to mucous membranes and respiratory system.
- Skin** : Contact with skin causes irritation and possible burns, especially if the skin is wet or moist.
- Eyes** : Contact with eyes may cause severe irritation, and possible eye burns.
- Note to Physicians** : Treat symptomatically and supportively.
- Summary of Chronic Health** : N/A

5. Fire Fighting Measures

- Extinguishing** : Dry chemical, carbon dioxide, water spray or regular foam. For larger fires, use water spray, fog or regular foam. (1996 Emergency Response Guidebook, DOT P 5800.7). Apply cooling water to sides of containers that are exposed to flames until well after fire is out. Extinguish fire using agent suitable for type of surrounding fire and or chemicals. Do not use water directly on material. Avoid breathing corrosive vapors; keep upwind.

- Special Exposure** : Negligible fire hazard when exposed to heat or flame. Move container(s) from fire area if you can without risk. At high temperatures or when moistened under fire conditions, calcium chloride may produce toxic or irritating fumes.

Hazards

- Special Protective Equipment for Firefighters** : Wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full face-piece operated in the pressure demand or other positive pressure mode.

- Fire Fighting Procedures** : N/A

- NFPA Rating** : Health - 1
Flammability - 0
Instability - 1

0=Insignificant 1=Slight 2=Moderate 3=High 4=Extreme

- Uniform Fire Code Rating** : N/A

6. Accidental Release Measures

- Personal Precautions** : Avoid generating dusty conditions.
- Emergency Procedures** : N/A
- Methods of Containment And Clean-Up** : Vacuum or sweep up material and place into a suitable disposal container. Clean up spills immediately.

7. Handling and Storage

- Safe Handling** : Avoid skin and eye contact and breathing dusts. Wash thoroughly after handling. Launder contaminated clothing before re-use. Always use cool water when dissolving calcium chloride. Heat evolved is significant.
- Storage** : Observe all federal, state, and local regulations when storing this product. Store in a covered, clean and dry container away from incompatible material.
- Work/Hygienic Practices** : Wash hands with soap and water before eating, drinking, smoking, or using toilet facilities. Do NOT place food, coffee or other drinks in the area where dusting or splashing of solutions is possible.
- Ventilation** : Provide local exhaust ventilation system.

8. Exposure Controls/Personal Protection

10043-52-4	N/A	N/A	N/A	N/A

- Protective Equipment** : Wear appropriate protective gear for the situation. Wear appropriate protective (impervious) clothing. Leather work boots and/or leather products will dehydrate with resultant shrinkage and possible destruction. Wear appropriate non-leather protective gloves and boots.
- Eye Protection** : Wear safety glasses with splash shields or safety goggles/shield. Where there is a possibility of exposure, eye wash fountain and safety shower should be provided within the immediate work area for emergency use.
- Respiratory Protection** : A respirator is not indicated under normal operating conditions. Use of a NIOSH approved respirator should be based upon the presence of nuisance dust. When warranted, use a face mask particulate respirator with a NIOSH N95 rating such as Moldex 2800N95, MSA 816581 or 3M 8576PN5 or equivalent.
